

To whom it may concern,

I am excited to have the opportunity to write this letter of recommendation for Lorenzo D'Amato to support him in the process of pursuing his degree in Computer Science. I am a fellow colleague of Lorenzo and had the opportunity to observe Lorenzo's capabilities throughout the past year from March 2023 to present.

As I have observed Lorenzo over the course of his studies, he has come across as a meticulous, dedicated and hard-working student. He has an unwavering passion for technology and can grasp complex algorithms efficiently. His enthusiasm to learn and genuine interest in the field of computer science is apparent through his countless conversations with professors on becoming proficient in the field of computer science and using this knowledge to better the world around us. You can truly see his passion for wanting to use his intellect to help others and make this world a better place than when he arrived.

Furthermore, Lorenzo has mastered complex problem-solving skills and has become proficient in several programming languages including but not limited to Python, Java, JavaScript, HTML, SQL, C, C++ and more. He is capable of practically applying them in projects and putting them in real life instances. He already created new ideas for future projects entailing the use of technology to improve healthcare, environmental sustainability, and transportation. Lorenzo's heart and knowledge regarding computer science has impressed me insurmountably.

In addition to his technical abilities, he has exemplified noteworthy professional. His ability to manage different tasks efficiently and submit them without delays has made him extremely productive. He not only completed his tasks diligently, but also helped his peers, showcasing his collaborative skills and supportive nature.

Based on my perspective, I believe Lorenzo is a deserving candidate and would make an outstanding student for your university. He has demonstrated the character and work ethic that I am confident will lead to success in the furtherance of his studies at your university and in his future career. He possesses the necessary qualities to enroll in an undergraduate program to improve his skills and gain an in-depth knowledge in the field of computer science and technology. He would be a great asset and would make significant contributions to the field of computer science. I recommend him without reservation for a spot in your incoming class students.
